CSU “No loud noises” Restroom Signage
March 25, 2020

Plastic Engraving Stock Background, 1/32”
to Match Matthews Automotive Paint “Dark Bronze”.
(Dark brown matches new building window mullion color and exterior signage family.
Required per ADA:
Non-glare background and characters required per ADA.

White Text,
5/8” Ht., Raised 1/32” Proxima Nova Semi-Bold
Text Requirements per ADA:
Text raised from sign surface, min. 1/32”. Sans serif font, all uppercase.
Distance between character must be a minimum of 1/8” and a maximum of 4 times the
character stroke width. Separated 3/8” min from Braille.
Text and background must contrast.

Braille, Grade 2, Domed, Material to Match Adjacent Panel
Braille Requirements per ADA:
Grade 2. Located directly below associated text. If raised text is multi-line, Braille is placed all
on one line. (If possible). Ensure space for 2 lines of Braille.
Separated 3/8” min. from text. Braille must be domed or rounded, never flat or pointed.

NOTES:
Sign to be located on outside of room. “No loud noises” restroom sign to be secondary in nature to required restroom
signage. “No loud noises” sign should be located adjacent to restroom sign, align tops of signs.
Braille graphics are for illustrative purposes only. Actual Braille
to be composed by signage fabricator. All Braille text should be
verified before fabrication.

* Signage material, colors, and fonts may match existing or
proposed interior signage system. However, all symbols and
wordings must follow this standard. Final design must be
pre-approved by the CSU Inclusive Physical & Virtual Campus
Committee before fabrication and installation.

Signage fabricator to provide shop drawings to CSU
Environmental Graphic Designer at Facilities Management for
approval BEFORE fabrication.

Any deviations from these standards must be in accordance
with the current Standards for Accessible Design per the
American with Disabilities Act (ADA).

Installation varies per building and wall finish. Some walls
will require fasteners instead of adhesive. Any fastener should
not interfere with sign content. Paint fastener to match sign
background.
