

FACILITIES MANAGEMENT

AT COLORADO STATE UNIVERSITY

FM WEEKLY
COMMUNICATION

April
19, 2021

Issue 113

Hello FM Team,

Today we are excited to share that the FM Engagement and Recognition Committee (ERC) is looking for new members!

This team has worked together to provide FM employees with daily recognition through the SPARK program as well as department-wide events, such as Donut Day, Summer Ice-Cream Social, Chili Cook-off, and the 2020 Mask Contest. As of April 1, 2021, the ERC has given out over 1,600 gift cards for displays of department values.

We are striving for more diversity within the committee from all sections and groups in Facilities Management. This helps to ensure events can reach as many employees as possible and offer new perspectives. Creativity and a passion for adding excitement to the workplace are highly encouraged. Moreover, new ideas for events or programs are always welcome. Committee participation demonstrates a collaborative spirit, one of the Facilities Management core values. Additionally, becoming a committee member is a great way to meet new employees, learn about different sections within FM, offer your opinion or expertise, and refine or develop new skills.

The committee asks for a minimum commitment of two hours per month, with one hour for attendance at the monthly committee meeting. Currently meetings are on the third Tuesday of each month at 2:30 p.m. via Microsoft Teams at this time. Those with Microsoft Office skills can help with reporting SPARK numbers and redemptions of the cards or by posting SPARK stories. Those who prefer to be a little more “hands on” can also help with the SPARK program redemption process or by encouraging others to participate and show their FM values.

If you have any questions or would like an invite to the next meeting, please contact the Engagement and Recognition Committee at: fac_employee_appreciation@mail.colostate.edu.

Thanks,

FM Engagement & Recognition Committee

Tom Satterly, P.E.
Associate Vice President for Facilities Management
