

# FACILITIES MANAGEMENT

AT COLORADO STATE UNIVERSITY

FM WEEKLY  
COMMUNICATION

June  
02, 2021

Issue 121

## Welcome FM New Employees (May 2021)

In addition to [Savannah Romero](#) who joined the FM Finance section this May, please welcome **Jessica Taylor** to the FM Remodel and Construction Services section. She joined their team as an Accounting Tech III in May.

## FM Retirements (June 2021)

**Dallace Unger**, IT Manager for the FM Computer Services section, is retiring June 30! Dallace has worked at CSU Facilities Management for 35.5 years! He started as a computer programmer, writing and supporting the code of the original billing system that Facilities used. He was also hired to be the system administrator for the computer network that consisted of ten computers. Most of his time in FM has been managing the servers and network, but in 2011 Dallace took over supervising the employees providing hardware and software support to the department. When Mic Hardin retired in 2015, he took over supervising all of Computer Services.

Shelby White shared about her time working with Dallace, "I really appreciate all the hard work and long hours he has put in leading our group. He has always been a helpful resource for me and is someone who has always shown encouragement for the betterment of my career. He is a prime example of someone who is a leader and not just a 'boss.' It will be sad seeing him go, but I am happy for him in his retirement. I wish him all the best on his new adventures." Ben Burkley followed up with, "He's been the best boss I've ever had."

Please take the time to congratulate Dallace on his upcoming retirement. He is looking forward to traveling more. Currently on the list is Australia, New Zealand, Antarctica, St. Martin, and all the baseball stadiums around the country. He is also enthusiastic about having time to read, get out on the lake near his home, playing piano again, and doing more writing.

While every job has its stresses, Dallace said that the general stability and predictability of having a job within FM allowed him to focus on his life outside of CSU. He added, "Also, the great people I have had the privilege of working with here at the University over the years. Thanks to all of you!"
